**From the President, Brian Davis**

Have you ever travelled to London and enjoyed the ability to board a train for Paris that will arrive in time for lunch? High-speed rail is a modern reality across Europe and parts of Asia, and soon it will become a reality here in Texas.

At our next General Meeting, Rebecca Cowle of the Texas Central Railway will provide us with information about the high-speed train that will link Dallas and Houston in under 90 minutes. Just imagine the many ways that such a connection might effect your life. Dinner in Houston. A night at the Opera. A football game. Maybe a day at the beach in Galveston (if an extension gets built). These options and many more are all in the works. For you Aggies, there is even talk of a stop in Bryan/College Station.

If proven successful, a second line is under consideration for the Interstate-35 corridor that would link Dallas, Austin, and San Antonio. Many transportation experts feel that the benefits of a high-speed rail network across our state will ensure that the economic growth we've enjoyed for decades continues to attract millennials and adapts our infrastructure for the economy of the future.

**Brian Davis**  
President - WNNA

**Wynnewood North Neighborhood  
Association**

**General Meeting**

**April 21, 2016 - 7:00 PM**

**Meet and Greet Starts at 6:30 PM**

**Orion Ballroom—Bank of America (400 S Zang Blvd)**

**See Page #9 For Directions and Parking**

Please take a moment to look at the railway's website, and join us at the General Meeting with your questions for Rebecca.

## Community Service— Fallyn Jones, VP

### Continuing to Build a Community of Service

*OneCliff* is one of our initiatives this year as a Wynnewood North board. One of the primary objectives of this initiative is to continue to build a spirit of service not only within the Wynnewood North community, but also the Oak Cliff community at large. Below are a few recent and upcoming events that support this mission.

### Dallas Area Habitat for Humanity ReStore

On Saturday, March 19, 2016, 11 residents of Wynnewood North volunteered for a community service event at the Habitat for Humanity Oak Cliff West ReStore location. Our neighborhood volunteers assisted with customer service, store organization including organizing carpet and tile squares as well as cleaning and organizing the items for sale throughout the store. The group also received special recognition from the Habitat for Humanity ReStore volunteer coordinator for a job well done.

We would like to thank these amazing volunteers: Minakshi Muthusamy, Ardell Mitchell, Lynn Sulander, Cindy Kirk, Mary Scherer, Denise Requardt, Brenda Steele, Janice Coffee, Terry Thomas, Carolyn Jones, and Fallyn Jones. Your time and service are truly appreciated.

Please note that the Dallas Area Habitat for Humanity ReStore has ongoing volunteer needs in their administrative offices and ReStores, as well as special projects, so please reach out to Sarah Brown if you'd like to be involved. I have included her contact information below.

Check out <http://dallasareahabitat.volunteerhub.com/Events/Index> for these opportunities.

Sarah Brown,  
ReStore Volunteer Coordinator  
[214.678.2353](tel:214.678.2353)  
[sbrown@dallas-habitat.org](mailto:sbrown@dallas-habitat.org)

### SSNOW

Supporting Senior Neighbors of Wynnewood (SSNOW) 2016 Brunch!

In continuing with the spirit of service, the Wynnewood North Neighborhood Association partnered with Kidd Springs to host a very special brunch in honor of all Wynnewood North Seniors and Kidd Springs Seniors, 65 and older. The Supporting Senior Neighbors of Wynnewood (SSNOW) Brunch has been a tradition in Wynnewood for many years and the neighborhood enjoyed this great event this year with Kidd Springs.

### Old Oak Cliff Conservation League (OCCCL) Neighborhood Grant

The Old Oak Cliff Conservation League (OCCCL | the "League") offers Supplemental Grants for the enhancement of its member Oak Cliff neighborhoods, including Wynnewood North. Upon receipt of all grant applications, the League reviews and awards grants to the extent their funds allow. For those neighborhoods receiving a grant, OCCCL will reimburse 60% of the approved project cost upon completion. The League does not guarantee that any grants will be awarded.

Wynnewood North traditionally applies for a grant each year to improve our neighborhood. In 2015, due to a surplus of funds available from the League, Wynnewood North applied for multiple grants. Wynnewood North was awarded grants to fund a portion of the following projects: Kidd Springs Swim Camp, SSNOW Brunch, Spring Fling Bounce House and Activities, Four Printed Quarterly Newsletters, Web Hosting, Reforestation of Greenbelt, and Monssen Triangle Light Repairs.

The Old Oak Cliff Conservation League (OCCCL) Neighborhood Grant idea proposals will be discussed at the General Meeting on April 21st. If you have ideas for potential grant projects or interested in attending the symposium, please reach out to Fallyn Jones at: [fallynjones@gmail.com](mailto:fallynjones@gmail.com) or by phone at: [214-563-6845](tel:214-563-6845).

## Social—Ric Shanahan

Hey Hey, Wynnewood Northerners! Seems like this year is going faster than ever. Can you believe it's almost summer already?

Easter came early this year but the weather couldn't have been better for our annual spring fling and Easter egg hunt (you'll find photos of the event throughout this edition and on Facebook). Special thanks to our Parent Liaison for prepping the grassy meadows of our parkway with hundreds of eggs for the kids of Wynnewood North to collect into baskets. It seems like there were just as many kids as there were adults--in fact, our rough count had about 30 kids at the event participating in games, a bounce house and the hunt. Meanwhile, the adults sat back and enjoyed the day with burgers, dogs and a pot luck lunch. Thanks to all the neighbors who participated, and we look forward to seeing you all back next year!

The event calendar is full for the next few months as well. **SPRING CLEAN UP** is Saturday, April 23 and just two weeks later on Saturday, April 30 we'll be hosting both the **GARAGE SALE** and **SPRING WANDER**. Start your spring cleaning now so you can get rid of unnecessary clutter that morning. (Wynnewood North will advertise for this event on social media. All you need to do is go over to the city's website and print a permit to keep on hand in the event code inspectors show up to validate you are in compliance with city ordinance. If you don't have internet access, call Ric Shanahan at 214-289-2340 for a blank copy.) While you're cleaning out your closets and garage, start making plans to purchase your tickets to hang out with the neighbors at the Wander. (House #1 is 439 N Manus, Paul and Marilyn Jol); House #2 is 715 S Manus, Dr. Colter Hoggan and Ric Shanahan; House #3 is TBD.)

Date and location will be announced soon for **MOVIES ON THE LAWN** in May.

The homes for June's Neighborhood **HAPPY HOUR BYOB** will be announced soon.

Finally, we'd like to start prepping for summer and fall activities. Plans are underway for our **FOURTH OF**

**JULY** celebration and some **HAPPY HOURS** at local vendors. We need volunteers for the **FALL WANDER**. Please let me know if you can host a BYOB or Wander, or would be willing to co-sponsor either with other neighbors.

Headline: Methodist Urgent Care opens just minutes away from Oak Cliff

Sub: What you may not have known about urgent care

Methodist Urgent Care does much more than treat colds and strep throat. Our providers and staff are trained to diagnose and treat most non-life threatening injuries and illnesses. On May 2, the newest location opens in Inwood Village, at 5709 W. Lovers Lane.

**Did you know** – Methodist Urgent Care can treat sprains and fractures. We have on-site digital X-rays, saving you time and money. We can stabilize fractures with splints, crutches and slings, and quickly arrange for orthopedic care.

**Did you know** – You won't have to wait long at Methodist Urgent Care. Most patients are in and out in about an hour. You can even sign up for an appointment [online](#).

**Did you know** – We can stitch, staple or Dermabond (skin glue) lacerations. We also provide wound care and dressing changes for wounds.

**Did you know** – Our centers have diagnostic capabilities conveniently on site including electrocardiogram (EKG), and CLIA-certified lab capabilities including rapid flu, rapid strep and pregnancy tests.

**Did you know** – Your child can get back-to-school physicals at Methodist Urgent Care. Our staff is trained to work with children of all ages, and we can provide the physical exams and vaccinations required for school, sports and work.

**Did you know** – Going to Methodist Urgent Care will save you time and money. Urgent care co-pays (usually \$25-\$75) are typically substantially less than those charged by hospital emergency departments and free standing EDs. Methodist Urgent Care accepts all major [insurance](#) plans including United Healthcare, BlueCross BlueShield and Medicare.

**Did you know** – Methodist Urgent Care is open after your doctor's office is closed. The Inwood Village location is open 9 a.m. – 9 p.m. Monday-Friday, and 10 a.m. – 8 p.m. Saturday and Sunday

For more information – go to [methodisturgentcare.com](http://methodisturgentcare.com).

## Beautification—Cynthia Michaels

### \*\*Alley Maintenance Reminder\*\*

Please note it is your responsibility to keep the alley way directly behind your home clear and free from overgrowth and debris such as grass, limbs, branches, construction materials, etc. Please take some time to walk this area behind your home and do a little

## Yard of the Month

Congratulations to the most recent recipients of Yard of the Month:

**January: Sam Harringer**

**February: Mike Sims**

**March: Amy and Scott Curtis**

**April: James Botello**

Each of these recipients received a gift card compliments of Calloway's. We have many beautiful yards in our neighborhood. Please remember to nominate yards each month.

- Visit [www.wynnewoodnorth.org/](http://www.wynnewoodnorth.org/)
- Go to Beautification > Yard of The Month Nomination
- Or contact our Beautification director, Cynthia Michaels

Each recipient of Yard of the Month receives a gift card compliments of Calloways. We have many beautiful yards in our neighborhood. Please remember to nominate homes for Yard of the Month. An eblast is sent out notifying residents when it is time to nominate homes or Yard of the Month. We will limit each home to receiving this designation only once per year. As all prepare for the spring season, note Calloway's has provided helpful tips and a coupon to be used on the purchase of your spring plants and supplies.

January – 626 Woolsey

February - 416 Monssen

March—647 Bizerte

April— 1823 Shelmire

## Tips for Spring Gardeners

FROM CALLOWAY'S AND CORNELIUS NURSERY

### Timely Tips for April Gardeners from Calloway's and Cornelius Nursery

April means "to open" or "opening", in allusion to it being the season when trees and flowers begin to "open". This is the month of rebirth and hope for the future. April means Spring so; get out your gardening tools and get moving. Calloway's and Cornelius Nursery are fully stocked with all kinds of plants and products for every purpose for today's gardeners. Consider adding Native Plants such as Texas Sage, Red Yucca, and Mexican Heather to your landscape. Native plants are perfect for our Texas Summer heat better than most, require less water, require less mowing, provide habitats for birds, butterflies and other wildlife, protect the soil, and save on fertilizers and insecticides.

A successful garden begins with good soil. Organic material is important to the soil composition. It helps with drainage and increases the microbe population. Expanded shale is used to break up hard compacted clay soils. Top dress your flowerbeds and containers with organic mulches.

Hopefully you have your tomatoes, peppers, squash, and other warm season vegetables already planted; if not get them in the ground right away. To get the highest yields, make additions of fertilizer (called side dressing) every couple of weeks, starting about a month after transplanting or seeding. If your yard is too small for a traditional garden plot, try gardening in containers. The bigger the container, the better!

If you want to create a truly dynamic garden, inviting colorful guests like butterflies and hummingbirds is definitely the way to go. Butterflies like sunshine and plenty of space to fly around, so opt for a sunny, open spot. Both enjoy having some type of cover as a resting spot. Your garden can even include a water feature for butterflies and hummingbirds to play in.

St. Augustine and Bermuda lawns should be actively growing now; so it is a great time to apply fertilizer. Please consult one of our Texas Certified Nursery

Professionals for the best advice for your lawn. A correctly fertilized lawn now will better help your lawn to handle the Texas Summer heat!

## It's Your Park Day!

### BEAUTIFICATION – ANNUAL SPRING CLEAN UP

Neighbors, we need your elbow grease! Please join the Annual Spring Clean Up to give our greenbelt and triangles a face lift.

Wynnewood North and the City of Dallas are once again partnering in the annual “It’s My Park Day Dallas”. The Greenbelt and triangles are this year’s project.

Cleanup takes place on **Saturday April 23rd, from 8:30am to 12pm.**

**Meet at the Triangle on Monssen** at 8:30am.

A breakfast snack and water will be provided.

Bring gloves and any yard equipment you think will be helpful. Wear long sleeves and pants. Might want to wear a hat and put on bug spray!

Be prepared to sign a release waiver prior to starting the project. The City will pick up the debris the following week.

Thanks in advance for your participation. Please address any questions to [beautification@wynnewoodnorth.org](mailto:beautification@wynnewoodnorth.org).

## Tales from 506 Woolsey – Cindy Kirk

### Dog Days

It's Spring and the redecorating bug has hit! However, we won't be winning any prizes from HGTV, as these days, "redecorating" means a plastic sheet down in the den with sheets over it, the front room is blocked off and strategic doors stay shut, including the doggie door. This life change came about when we found out that Annie is diabetic. I learned lots of things about myself at the doggie hospital. I am cheap, Mary is the sweet one. I am sure most of you have already figured that out. While our poor sweet furbaby laid on the examining table, the vet walked in with the "treatment plan." It was 32 pages long and every entry had a \$\$\$ sign at the end of the entry. The last page had the grand total which was equivalent to a month's vacation in France. I'm looking at the bill, the vet is looking at me, Annie is looking at me, Mary is looking at Annie. It was a frozen moment in time. Finally, Mary through tear filled eyes, her voice cracking, told the vet, "do whatever you need, she's our baby..."

Me: "Whoaaa...whoaaa...whoaaa wait a minute...let's talk about this first...Mary, hush and go sit in the chair...now, uh, well, I have a number in my head, and this total doesn't really match that number...do you really need to do all of these tests?"

Vet: "Well, we can make some adjustments..."

Me: "Ok, well, what are the odds here? How do I know if I agree to all of this you all will be able to save her? (Annie was looking deep into my eyes when I asked this question...I felt a twinge of guilt as I tried to avoid eye contact with her...)"

Vet: Well, I can't promise we can save her, but these tests will help with the prognosis..."

Me: Ok...hmmm, well, how long have you been practicing?"

Vet: "Ten plus years..."

Me: "Ok, well in ten years, you have probably seen a lot of diabetic dogs come through those doors right?"

Vet: "Well, yes..."

Me: "And since you have seen a lot of diabetic dogs, you have a pretty good idea of who you can save and who you can't, right?"

Vet: "Well, it varies on the dog and the age and the severity..."

Me: "I understand there are various factors, but you have a good idea if a dog is going to make it? Right? So, if you were going to be able to do just one test that would help you determine a dog's chances, out of this 32-page plan, which one of these entries would be the test you would choose?"

Vet: "Well, I need to know if she is in acidic ketosis."

Me: "Ah, now we're getting somewhere. So how much is that test?" And so it went...

I learned that if you are cheap enough, you can quasi-negotiate vet bills like you're buying a used car. Mary sat in the corner and just shook her head in either grief or shame, I'm not sure which. I seem to bring out that reaction in her at times and this was one of those times. So, we ran the test for acidic ketosis. While they took little Annie out for her tests, I was calling my best friend whose sister is a vet in NYC. A short conference call later I have just enough knowledge to make me dangerous. Fortunately for Annie, she was in ketosis and not acidic. Annie spent three days in the doggie hospital, then she came home and we learned to keep a schedule. Every 12 hours Annie needs her Vetsulin, and every month, I complain that we won't be retiring anytime soon because of the cost of Vetsulin, diabetic dog food, test strips, and syringes. We had to learn to test her sugar levels at home. Not as easy as it sounds. In case you haven't noticed, dogs are hairy little fur babies and getting a drop of blood to appear is difficult. The vet told us to prick her on the inside of her lip if we couldn't get a sample from her ear...yeah right. Would you want the inside of your lip pricked daily or an 8-hour sugar curve? Not happening, so...we had them shave the inside of her ear. Poor thing, she is not a fashion plate these days as her little legs were shaved for IV's and her little belly got shaved in the hospital and has yet to grow out! Trevor calls her poodle-leg, she calls him farty butt, it has all gotten out of hand

**Dog Days, Continued....** To add insult to injury, the diabetes has caused Annie to go completely blind. Because we don't want any accidents to happen with the pool, we closed the dog door while we are gone during the day. Closing the dog door has led to my new profession of becoming an expert in rug cleaning. Oh, we also now have a new rug shampooer – it has become a necessity. Let me know if you want to rent it out – vetsulin is expensive.

Trevor didn't want to be left out of the fun and somehow got a stomach virus that he passed on to his sister. I came home from work to find no less than 42 separate poop piles. Forty-two, and YES, I counted them. Of course the prolific poop necessitated yet another trip to the vet. Don't ask me how, but somehow when we scooped up the puppies to take them to the vet, we failed to think to scoop up some poop – which was of course was the first thing the vet wanted asked for. Another item we can add to our resume is “poop sample gather.” Mary took Trevor outside and followed him around with the sample cup, and he willingly obliged. That was when the plastic sheet went down with the soft sheet on top. Why the sheet on top? Because they didn't want to walk on the plastic. It apparently sounded or felt “funny” to their precious little paws. For four wonderful days I came home to the Trevor/Annie House of Poop. This was not a B&B you would ever want to book. I think they had pooping contests because piles were side by side and I mysteriously found the measuring tape left out by the fireplace. In between the poops, Trevor decided that barking would somehow cover up the fact that he had a bad case of flatulence. Fart...bark, fart...bark. It's was fun! Through it all, Annie has been a trooper. She has learned the term “cookie-shot” and is a perfect angel when getting her insulin because she knows you get a diabetic treat afterward. Anything for a treat has always been her motto and it is still serving her well. She adjusted better to going blind then we did. She has worked out her own path and follows it around the house. The key is to NEVER move any furniture and don't leave your shoes in her pre-determined path.

Over the last few months, much to my surprise, a greater wisdom has been influencing my life. I have begun to see small details that evidence the connectedness and the eternity of all things.

I believe in doggy heaven and I believe in the Rainbow Bridge. But until that day comes, I will love my old dogs in sickness and in health 'til death do us part. When I look at both of them, I still see my puppies, and I remember all the joy they have given us and how much joy they still give us. After all, how could I not love a dog whose muzzle has yet to gray, but her rump has. Even as a senior she found a way to be her own unique self. Trevor has asked for equal time, but I have told him that will have to be another day.

Keller Williams Realty Urban Dallas

## **Pet Corner—Denise Requardt**

### **Spay & Neuter**

All dogs and cats in the City of Dallas must either be spayed or neutered, or the owner will need to obtain an [Intact Animal Permit](#). There are a few exemptions to this ordinance:

- Dogs and cats under six (6) months of age;
- Dogs and cats unable to be spayed/neutered or is permanently non-fertile for health reasons;
- Service animals;
- Competition cat or competition dog;
- Dogs and cats for adoption at Dallas Animal Services, other animal welfare groups, or for sale in licensed retail pet stores; or
- Owners holding a valid Intact Animal Permit

DAS and their partners strive to provide free and low-cost spay/neuter services for Dallas residents. Availability of these services, however, is dependent upon funding, and programs and offers change frequently. Please call 214-670-8248 for more information, visit Facebook at [Facebook.com/DallasAnimalServices](https://www.facebook.com/DallasAnimalServices) or [www.dallasanimalservices.org](http://www.dallasanimalservices.org)

### **Feral Cat Trap, Spay/Neuter, Return Program**

There has been an influx of feral cats in the neighborhood. If you are feeding the cats it is your responsibility to ensure they are spayed/neutered.

### **THE FACTS ABOUT HOMELESS, WILD AND UNTAMED CITY CATS**

[http://www.dallasanimalservices.org/trap\\_neuter\\_return.html](http://www.dallasanimalservices.org/trap_neuter_return.html)

For additional Feral Cat information visit: [www.feralfriends.org](http://www.feralfriends.org).

If you need a trap, help trapping, helpful information contact WWN Neighbor - Denise Requardt 214-801-1802.

## **Crime Watch—Jeff Sappenfield**

Did you know **every citizen is empowered to ask the Dallas Police Department to add extra patrols** to his/her neighborhood? Just go to the City of Dallas 311 app on the web and look for "extra patrols" - requests are good for a duration of 14 days. (You will have to register to do this.)

Another good source for keeping in the loop on local crime is via the Nextdoor app. If you are not yet a member of the Wynnewood North Nextdoor community, you can join by logging on [www.Nextdoor.com](http://www.Nextdoor.com).

Kellar and Payton Iberfield want to help spread the word on two important topics: please spay/neuter your furry friends and take steps to learn how you can help minimize crime in our neighborhood.

## PACKAGE THEFT PREVENTION

Wynnewood North and other nearby communities are having increasing problems with package theft. Your neighborhood VIP's have compiled this list of some helpful package theft prevention tips:

1. Obtain the tracking number and **track your item** with the shipping company so you know the day the package will be delivered.
2. Take advantage of the "SPECIAL SHIPPING INSTRUCTIONS" section when ordering items— **post delivery instructions** like "hide behind wall, set behind bush left of the door, make sure package is not in plain sight".
3. Using your tracking number, **ask a neighbor** to retrieve your delivered package from your porch—be sure they will be home the day of delivery (see #1).
4. Get to know your delivery drivers and **ask your delivery drivers** to place USPS packages that will not fit in the mail box or mail slot, in some other agreed upon location (such as behind a large planter, in a box on the porch, etc.). Remember them at the holidays.
5. **Require a signature** for delivery.
6. Arrange for **packages to be held** at the shipper's local facility for your retrieval during business hours.
7. Make every effort to **not have packages delivered to your home while you will not be there**. If you have to leave unexpectedly, see if you can have packages already en route to be held at the shipper's local facility
8. **Open a personal mail and package receiving box** at a manned facility — there are several in Oak Cliff—and have all of your mail directed to that location instead of your home (of course, you will have to pick it up).

If you have any other suggestions about crime prevention and improving safety in our neighborhood, please contact Jeff Sappenfield and consider joining the VIP team of volunteers.
